AI: LLMs | Prompt Engineering | Agentic AI

Technical: React | TypeScript | APIs | Redis | Git | Vercel

Product Experience

Aza — AI Customer Service Agent [Link](#)

Mar 2026

- Conducted an independent analysis of 10+ Amazon India user reviews, defined Jobs-to-be-Done, and built an assumption-led ROI model estimating up to ₹43.2B in annual savings at 80% automation.
- Built and deployed an AI customer-service prototype; target: resolve routine customer issues in under 2 minutes, compared with a reported 30–40 minute support-call baseline.

Credo — AI Credit Decision Explainer [Link](#)

Jul 2026

- Built an AI product that explains credit decisions in clear, customer-friendly language to improve transparency and user trust.
- Shipped end-to-end alone: PRD, React frontend, Vercel serverless AI layer, Redis persistence, from discovery to live deployment.

AI-Driven Financial Inclusion Platform

Oct 2025 – Jan 2026

- Conducted 10+ user interviews and competitive research, identifying trust, onboarding, and digital literacy as key adoption barriers.
- Authored PRDs for eight prioritized features and defined activation, task completion, and retention KPIs.

Professional Experience

AI/ML Business Development Intern — Fusionpact Inc.

- Translated AI service capabilities into client pitches and conducted competitive gap analysis to support product positioning.
- Supported outreach strategy by aligning customer requirements with AI solution capabilities.

Publication
