

AKANKSHA MOHOTA

Product Management | GenAI | Fintech | User Research

(+91) 7498084882 | akankshamohota@gmail.com | [LinkedIn](#) | [Git Hub](#)

PROFESSIONAL SUMMARY

Product Management professional with hands-on experience turning user research into product strategy, PRDs, prioritized features, experiments, and measurable outcomes. Conducted 10+ user interviews and analyzed 10+ customer reviews to identify pain points and define product requirements. Built, tested, and evaluated AI products across customer service, financial inclusion, and credit decisioning, combining user-centric product thinking with technical execution and data-driven decision-making.

WORK EXPERIENCE

AI/ML Business Development Intern — Fusionpact Inc.

March 2026 - Sept 2026

- Evaluated government tenders/RFPs, translating business, technical, eligibility, and delivery requirements into actionable AI/ML opportunity inputs.
 - Translated AI/ML capabilities into proposal inputs and supported compliance and proposal documentation for deadline-driven submissions.
 - Coordinated business and technical stakeholders across requirements, documentation, and proposal deliverables.
-

PROJECTS

Aza — AI customer Service Agent | Independent product project

March 2026 | AI PM

[Link](#)

- Analyzed 10+ Amazon customer reviews and tested 100 support scenarios, achieving 89% resolution, 94% refund-handling accuracy, and 80% lower average resolution time.
- Built and deployed an agentic workflow using Emergent AI; mapped failure modes, fraud risks, escalation paths, and policy edge cases into product requirements.
- Developed a directional ROI model to evaluate automation value across resolution time, escalation volume, and support costs.

AI-Driven Financial Inclusion Platform

Oct 2025 - Jan 2026 | AI PM

- Conducted 10+ user interviews identifying 3 adoption barriers; translated findings into an 8-feature PRD and prioritized solutions using RICE.
- Iterated the product through a 30-user usability study, increasing activation by 26 pp and task success by 23 pp while reducing task completion time by 40%.
- Defined and tracked activation, task-completion time, and week-1 retention to evaluate adoption, usability, and early product value.

Credo — AI Credit Decision Explainer

July 2026 | AI PM

[Live Demo](#)

- Built and evaluated an AI credit-explanation agent across 100 decision scenarios, achieving 94% factor-identification accuracy and 95% explanation accuracy.
 - Validated explanations with 30 users; 87% correctly interpreted decision rationale, while a bias audit evaluated disparate impact, equal opportunity, and proxy-variable risks.
 - Owned product and technical delivery across PRD, React frontend, Vercel serverless AI, and Redis from discovery through deployment.
-

SKILLS

- AI and Technical:** Agentic Workflows, Prompt Engineering, GenAI, LLMs (Gemini API), API Integration, TypeScript, React, Vite, Vercel Serverless Functions, Redis, Git and GitHub, HuggingFace, EmergentAI
 - Product:** PRDs, RICE, JTBD, Roadmapping, ROI Modelling, KPI Frameworks, GTM Strategy, Ethical AI and Bias Auditing
 - Tools:** Notion, Figma, Google Analytics, CRM, Vercel.
-

PUBLICATION

Bridging the Gap: How AI Can Drive Financial Inclusion in Emerging Markets

[Paper Link](#)

- Qualitative analysis of AI-enabled financial inclusion in India & US. Proposed a user-centric ethical AI product framework covering credit access, personalisation, and financial literacy.
-

EDUCATION

BITSOM – Birla Institute of Technology School of Management

Product Management with Generative & Agentic AI

Rashtrasant Tukadoji Maharaj Nagpur University (RTMNU)

Bachelor of Arts

Mumbai, India

Jul 2025 – Feb 2026

Nagpur, India

Jun 2022 – May 2024

CERTIFICATION

Product Management Simulation – Electronic arts (Forage) | Data Analytics Simulation – Deloitte Australia (Forage) | Introduction to Generative AI – Google Cloud Skills Boost.
